

Fluxaf Paint Spills Remover

Fluxaf Paint Spills Remover is a fast-acting solution specially developed to effectively remove paint splashes from various surfaces such as floors, furniture, tiles, and window frames. The product allows you to easily remove even the most stubborn paint splashes without damaging the surface. Fluxaf Paint Spills Remover is ideal for both small and large painting jobs, ensuring that your workspace is quickly clean again without the risk of paint damage.

Applicable on:

- Floors
- Furniture
- Tiles
- Window frames

Instructions:

1. Ensure that the surface you are working on is clean and dry. Remove any loose dirt or dust from the surface before applying the product.
2. Spray a generous amount of Fluxaf Paint Spills Remover directly onto the paint spots or apply it with a cloth or sponge. Make sure the paint spots are thoroughly covered with the product.
3. Let the Fluxaf Paint Spills Remover sit for a few minutes to loosen the paint. This makes removing the paint easier and prevents damage to the surface.
4. Use a soft cloth or sponge to gently remove the paint from the surface. If the paint is stubborn, you can use a scraper to lift the paint. Be careful not to damage the surface.
5. If a lot of cleaner has been used, wipe the surface with a clean, damp cloth to remove any excess product.
6. Allow the surface to dry properly and inspect it after drying to ensure that all paint spots have been removed. If necessary, repeat the treatment for stubborn paint spots.

Attention! Always do a test area first to see if you get the desired finish. Results can differ per wood or surface type.

Cleaning:

The cleaned residues (paint, etc.) must be disposed of as (small) chemical waste, according to local government rules and regulations.

Available quantities:

500 ml.

Shelf life:

Store the product in a cool, dry place. Keep out of reach of children. Wear protective gloves during use to prevent skin irritation. Avoid contact with eyes. In case of eye contact, rinse immediately with plenty of water.

Safety advice:

For extensive safety information, consult the MSDS.
